Full spectrum organic specialty mushrooms provide support for a healthy mind, energy, endurance and immune support. Our premium organic nutraceutical mushrooms are grown and produced in the USA by Monterey Mushrooms, the largest grower of fresh mushrooms in North America.

Medicinal mushroom products have been traditionally associated with the following benefits#:

BLAZEI: Supports insulin resistance; helps to manage physical and emotional stress; stimulates the immune system; anti-inflammatory

CORDYCEPS: Improves vitality and endurance; improves oxygen consumption and delivery to increase energy; supports healthy vascular function and respiratory health

MAITAKE: Helps maintain balanced blood sugar and insulin levels; supports healthy weight control; supports the immune system

SHIITAKE: Supports immune system; strong cardiovascular support; may protect against inflammation

CHAGA: High level of antioxidants; promotes anti-aging and youthfulness; helps to balance the metabolic system; natural adaptogen; supports immune health

LION'S MANE: Supports cognitive health; supports healthy nervous system; helps with focus, creativity and mood; supports immune health

REISHI: Adaptogen – provides balance and helps to manage stress; supports longevity; strong immune support; strong cardiovascular support

TURKEY TAIL: Enhances immune system; powerful immunity activators; improves stamina and gut health
